Sale Day Phone Number: (605)859-2577

Guarantee: The bulls are guaranteed 100% for everything the first breeding season. Fertility is guaranteed 100% in the first breeding season and is credited 100%.

Terms: The terms of the sale are cash or check payable at the sale facility unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

Bids: Every animal is to be sold and will be sold. No by-bidding is permitted. The highest bidder is the buyer.

Disputes: In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters is final.

Announcements: Errors discovered in the catalog will be corrected by announcements from the auction stand at sale time and will take precedence over the printed material in the catalog.

Accidents & Liabilities: All persons attend the sale at their own risk and the seller and sales management assume no liability, legal or otherwise, for any accidents occurring in, on, or about the premises. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Herd Health

We weaned the bulls on September 21st with ground hay, 2 lbs. of cracked corn and distillers grain. The bulls were transitioned over to a mixed ration of earlage, distillers grain, QLF, silage and ground hay where we targeted a 3lb/day gain. The bulls were slowly stepped up to a 46 mg cal. ration which consisted of 12 lbs. earlage, 2 1/2 lbs. distillers grain, 3/4 lb. QLF and 16 lbs. ground hay and silage. We like to keep the bulls on a high roughage diet and grow them out to ensure sound feet, legs and longevity of the bulls.

Branding Time: Titervac 5+ PHM
Vision 7/Somubac • Injectable Dectomax

Weaning Time: Nasalgen IP • Presponse HM
Vision 7/Somubac • Express 5
Poured with Ivomec

Spring Turn-Out: Preg Guard Gold 10
2 Footrot Shots • Poured with Ivomec

& guest consignor: McPherson Angus

The bulls were weaned on September 1st. They were started on CHS Payback Bull Challenger and free choice hay. They are slowly worked up to their full ration by the 1st of December. They are growed up, not fed up and are fed in a 10 acre lot for exercise and development. I bucket feed the bulls twice a day, so I get to walk through them everyday.

Branding Time: Ultrabac 7/Somubac

Fusogard (Footrot) • Pinkeye Shield XT4
Anthrax • Poured with Ivomec

**Bulls will be semen tested and scrotal measured • Carcass and Ultrasound data available sale day
Free wintering until April • Free Delivery on bulls to adjoining states**

Millar Angus

Welcome to the annual Millar Angus production sale. 2009 proved to be an exciting year with ample moisture, grass and plenty of hay. It wasn't hard for us to keep busy throughout the year as we chased after Ryle, our energetic 3 1/2 year old BIG boy that is always ready to go check cows or feed bulls with dad. The tractor cab got a little smaller in July as we added a new little gal to the operation, little miss Kobi Jane.

Now let's talk Angus cattle! As you take the time to evaluate this years offering of bulls you will find this to be one of the best sets we have offered for sale. These bulls will add length, thickness, carcass qualities and maternal strengths to your herd. The goal for our program is to produce cattle that will help the commercial cattle industry be as economical and profitable as possible. Keeping these thoughts in mind, we have stuck to a strict culling policy and put a lot of hard work, time and money into our breeding program. If you're looking for an older bull to cover more country one of our virgin two-year olds should fit the bill. They are younger calves from our 2008 calf crop that were held back to grow out and develop. These bulls were raised with the rancher in mind: natural growth bred in, not fed on!

We invite you to stop by to view our bulls and cow herd at anytime, we love to talk cattle! As always, we will take the bulls back home, keep them until April and deliver them, free charge. The bulls will be semen tested in March. Scrotal measurements and ultrasound data will be available sale day.

As always, the bulls sell **FULLY GUARANTEED** for the first breeding season with your satisfaction being our #1 priority.

We'd like to thank all of our past customers and those who have shown an interest in our program. We hope to earn your business here at Millar Angus where we may not be the biggest, but we're striving to be one of the best.

We look forward to visiting with you sale day!

Jon + Breezy

Cattlemen & Friends,

We would like to extend a personal invitation and welcome you to our 11th Annual Bull Sale. We would also like to take this chance to thank all of our past buyers and bidders. We truly appreciate your support and confidence in our program and will continue to work to earn and keep your business.

As I write this letter, I reflect back on the challenges we have all been faced with. Markets, input costs and more pressing the weather. One might ask why we do what we do. The answer for me is very simple, the lifestyle and people. We have been very blessed to live in a part of the country where you can still count on your neighbor and involved in a business that has built lasting relationships. Good times, good people. Rest assured we work very hard at this business 365 days a year and plan to continue to do so.

Buying bulls for your ranch is an important decision. It will effect your bottomline for years to come. While studying the catalog you will find generations of A.I. and cow families that have stood the test of time. The result, bulls that will sire calves that are consistant and replacements sure to make great cows. If you have any questions please feel free to call. We would love to have you visit the ranch so you can see the cows in their working environment. For your convenience the bulls will be in Philip on Monday, February 22nd and can be viewed up until sale time. Come early to the sale and enjoy donuts and coffee.

Deep Creek will keep the bulls free of charge until May, semen test and give them their spring shots and deliver them to your ranch. The bulls sell Fully Guaranteed for the first breeding season. **WE ARE SERIOUS ABOUT SERVICE!** We look forward to visiting with you in the future and seeing you at the sale.

Thanks Again,

T.J. & Jeanine Gabriel

• Extra K205 is the bull to bring EXT influence back into many of today's popular pedigrees. He offers excellent curve bender spread with stronger carcass merit and \$B than EXT himself. He also transmits significantly better scrotal circumference and disposition. K205 is well on his way to joining his sire Extra H6 on the 'Time Tested' curve bender list.

McPherson Angus

Dear Cattlemen,

I want to welcome you to the 3rd annual production bull sale. Thank you for coming. I appreciate your support and confidence in my program. Once again I have strived to bring to you what I feel is the top of my program's genetics.

McPherson Angus has only been around a short time but the ranch has been involved in cattle production since 1887. I have been producing purebred Angus starting in the year 2000 for the commercial herd. This program worked so successfully that I decided to take it to the next level and started a registered Angus herd using the same criteria that worked for me and I feel that will work for you.

The bulls that I use in my program are expected to have large scrotals, be deep thick bodied, positive carcass traits, have eye appeal and sound structure. I traveled many miles looking for just the right type of registered Angus females that would produce, be easy fleshing, nice udders and be moderate framed cattle. These females have good dispositions with strong maternal traits. The cows are run under range conditions. I do not feed them cake or grain but they do get a protein mineral supplement free choice. They are also expected to calve within a 45 day period. No opens are kept. The bulls weaning weights are achieved solely through milk and grass. They were never creep fed.

These outstanding set of bulls exhibit the traits that I am breeding for in my program. I am confident these bulls will work for you under any range conditions.

McPherson Angus will keep bulls free of charge until May, semen test and give them their spring shots and deliver them right to your pasture. The bulls sell **FULLY GUARANTEED** for the first breeding season.

If you would like to view the bulls they are at Deep Creek Angus. I would like to give a big THANKS to TJ and Jeanine for feeding the bulls and allowing me to sell with them. Feel free to stop in anytime to view the cattle or call with any questions. My top priority is to keep my customers happy both old and new. I look forward to visiting with you and seeing you at the sale.

Sincerely,

Luke McPherson

Female Offering

Truett & Dani Fitch, Philip, SD

Guest Consignment of Commercial Bred Heifers

145 head of fancy Black and BWF with a few red bred heifers. 100 Black and BWF heifers ultra-sound tested safe in calf to Coalbank, with a few red heifers safe to Cheyenne. All A.I. bred June 10-12 to start calving around March 15th.

45 Black and BWF with a few red heifers pasture bred to proven calving ease bulls from Millar Angus. Bulls turned in June 22nd for 30 days to start calving April 1st for 30 days.

All heifers have had all pre-breeding shots, poured and have had 2 Scour Guard shots. Pelvic measured to have 80 lb. un-assisted calves. All vet work done by Dr. Jim Stangle, Golden Vet Services. A great opportunity to buy heifers bred to calve in a short period of time and handled right. Sold in gate cut lots to suit the buyer.
